

Delivering the UK's highest  
quality, end to end traffic  
management solutions.

**ALL DAY, EVERY DAY.**

**NATIONWIDE**  
TRAFFIC SOLUTIONS

# ABOUT US

Nationwide Traffic Solutions is the UK's trusted traffic management company applying first-hand experience to deliver leading road traffic management solutions across all public and private sectors on time, on budget and on point.

From our strategically placed UK locations in Gainsborough, North Lincolnshire, and Gray's, Essex, we work with clients at every phase of a project to deliver complete end to end traffic management solutions.

With some of the best qualified and experienced operatives – accredited and working in full accordance to Lantra NHSS 12AB and 12D – Nationwide Traffic Solutions has a reputation for delivering innovative, reliable and quick solutions to the construction, utility and security sectors as well as working with access, crane and lifting specialists.

From high speed, event management and street works through to traffic management plans and planning services, our right first-time culture and expertise makes Nationwide Traffic Solutions the perfect partner to deliver cost effective traffic management solutions that add value.

Being at the very forefront of innovation, we have an extensive range of cutting-edge equipment which can be delivered by our fleet of eco-friendly vehicles and Impact Protection Vehicles (IPV) – to fulfil any traffic management need.

# EVENT MANAGEMENT

We take the stress out of planning public events – of any size – with our bespoke traffic management plans tailored to the needs of customers with the public's safety at the very forefront.

From the local fun fair to sporting events and music festivals, Nationwide Traffic Solutions can deliver innovative, robust and highly dependable systems from start to finish of an event.

Unique to each client, our in-house planning team produce bespoke plans whilst our Lantra qualified operatives are on hand to carry out the works installing and removing traffic management measures on location. We can also facilitate SIA accredited marshals armed with radios and trackers to assist any public event if needed.

We provide free, in-depth site surveys, risk assessments and method statements for all our

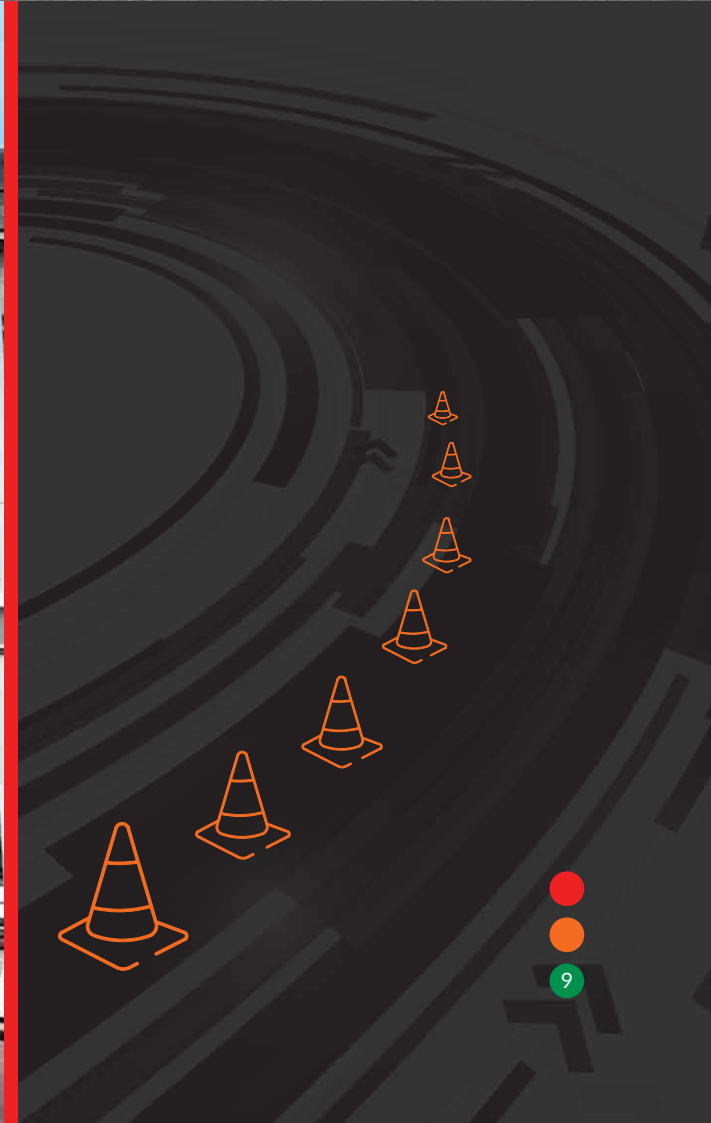

clients and work closely with all necessary parties, such as councils, Police, local authorities and communities to ensure planning and delivery of our services is seamless.

As part of our meticulous planning, in the lead up to events, we deliver letter drops and can install temporary advance warning signage to engage with the local community on future works.

We pride ourselves on our military precision, coupled with our ability to mobilise multiple skilled teams, to take the hassle out of planning to deliver successful traffic management solutions for well-managed and safe events.

# TRAFFIC MANAGEMENT PLANNING

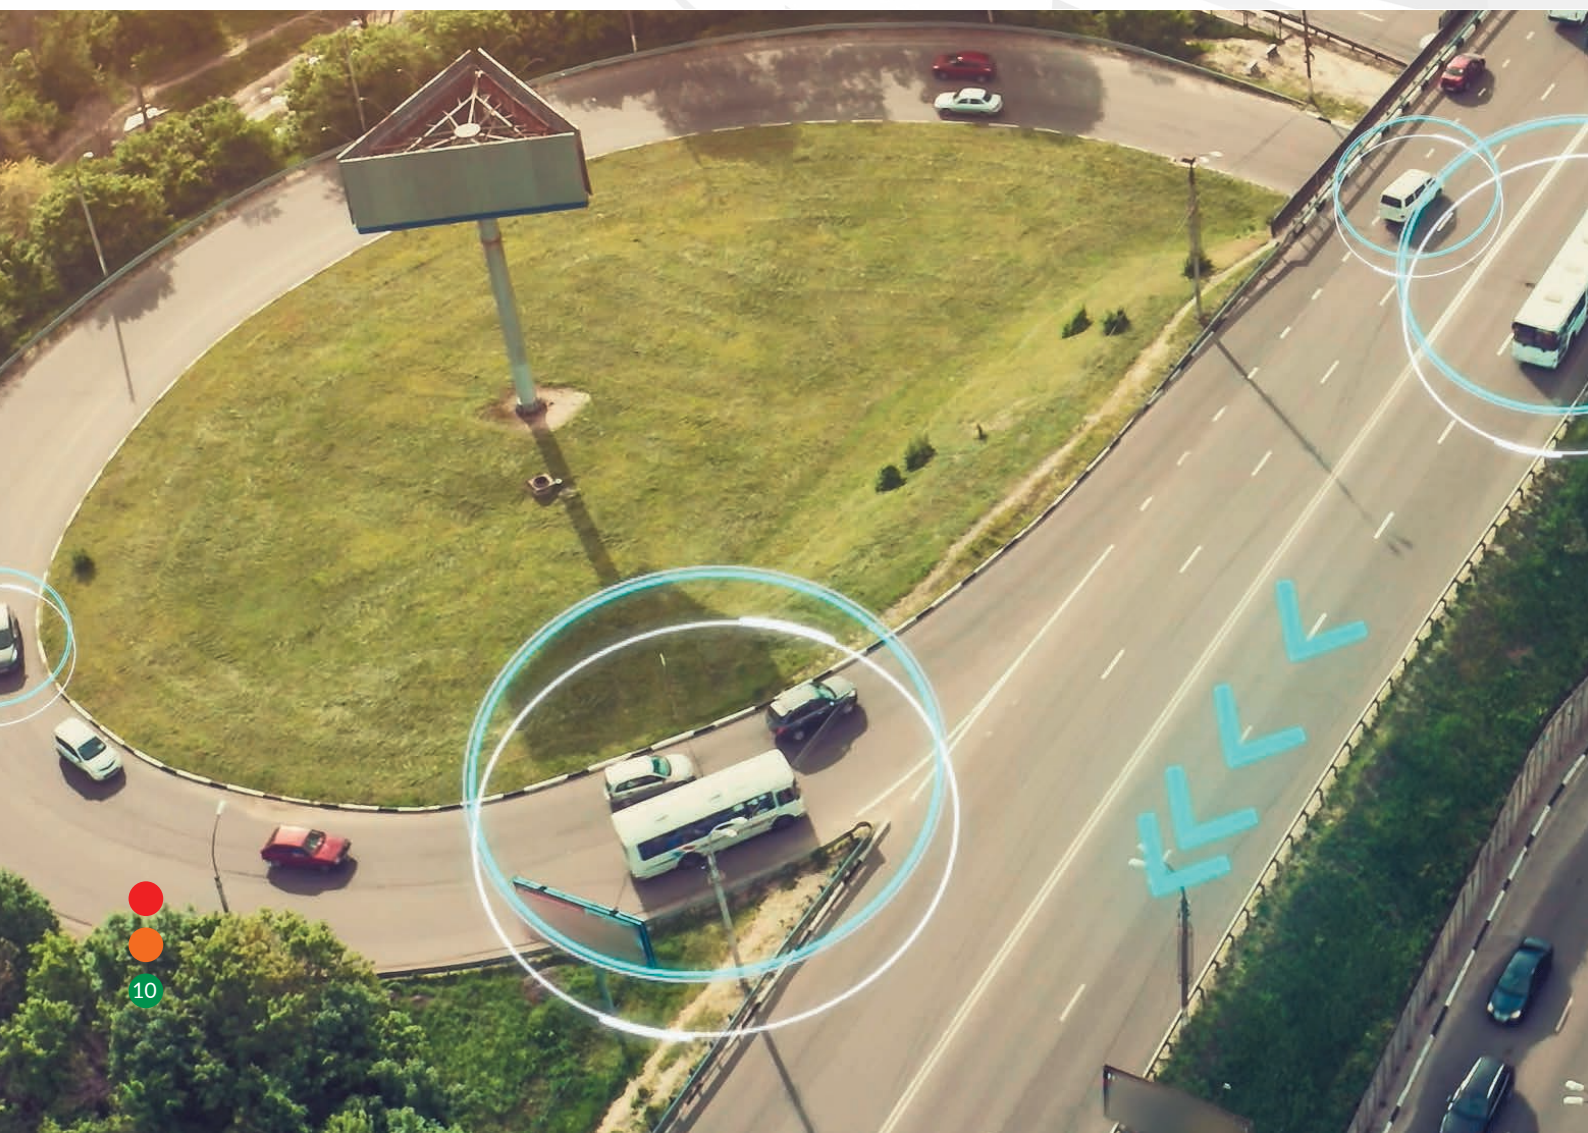

Extensive investment in CAD software and technology – coupled with a talent pool of Technical Officers and CAD technicians – gives us the capability to detail and design high quality plans, turning around on average 94% of drawings within only a matter of 24 hours from initial discussion.

We pride ourselves on a service offering that delivers over and above industry standards and which has been recommended by top authorising bodies including the likes of TFL and City of London Council.

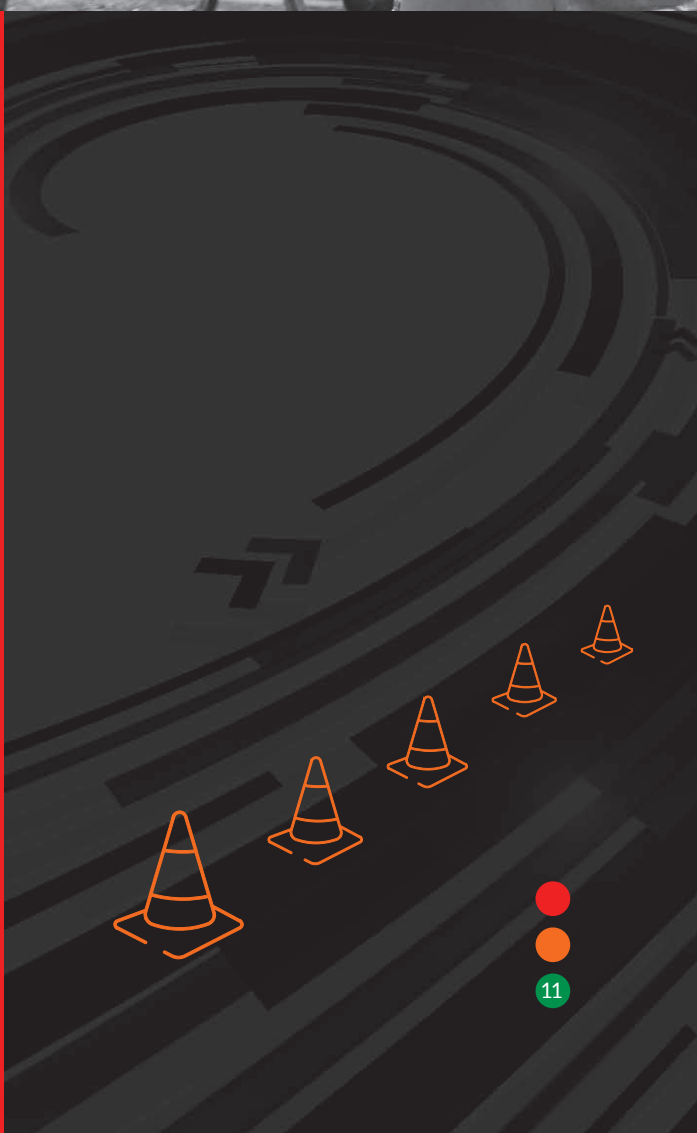

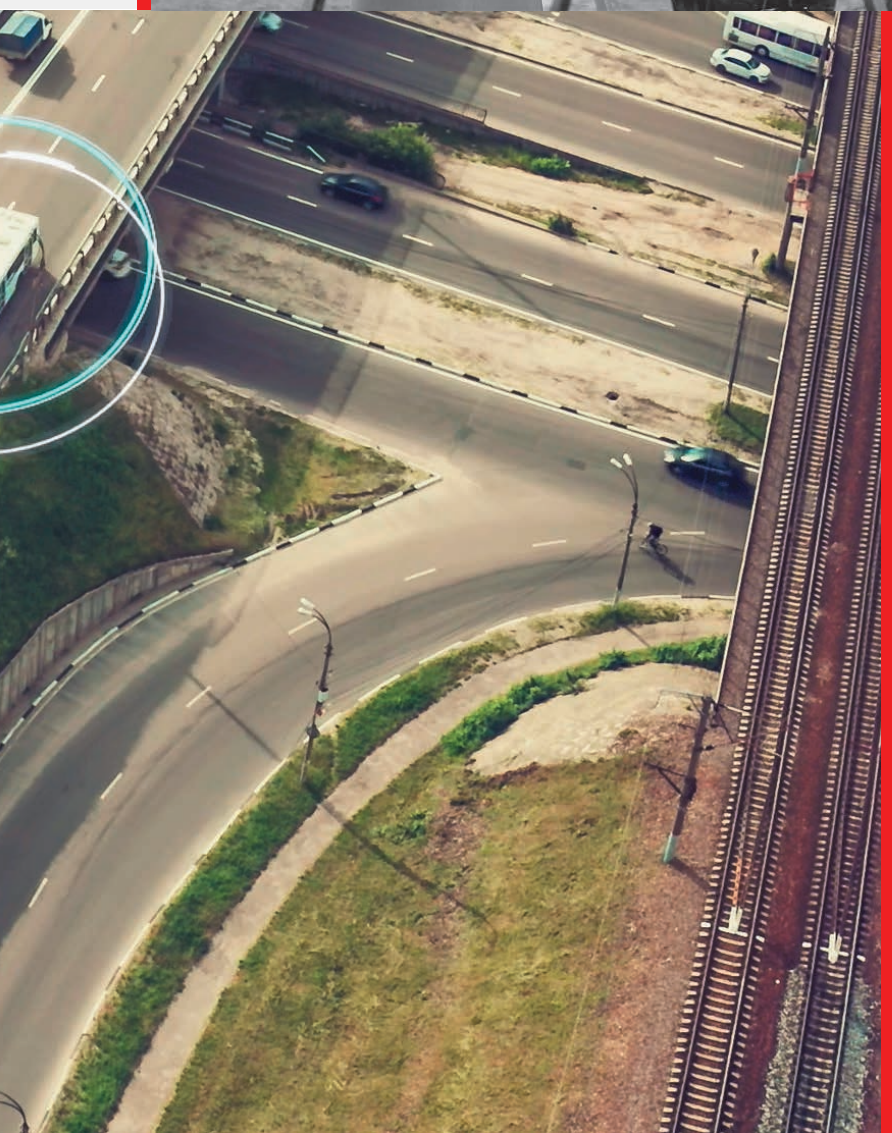

We have built a reputation for being the go-to provider for seamless, cost effective and professionally delivered traffic management

schemes, which are known to reduce traffic volumes and emissions whilst improving road safety.

Using the latest CAD and Cone technology, along with continuously updated ordnance survey mapping facilities, ensures that all our plans are suitable for the current infrastructure.

## CONTACT US

If you have any traffic management enquiries, please get in touch and one of our team members – **available 24/7** – will be able to help you.
